

We love maths in Reception

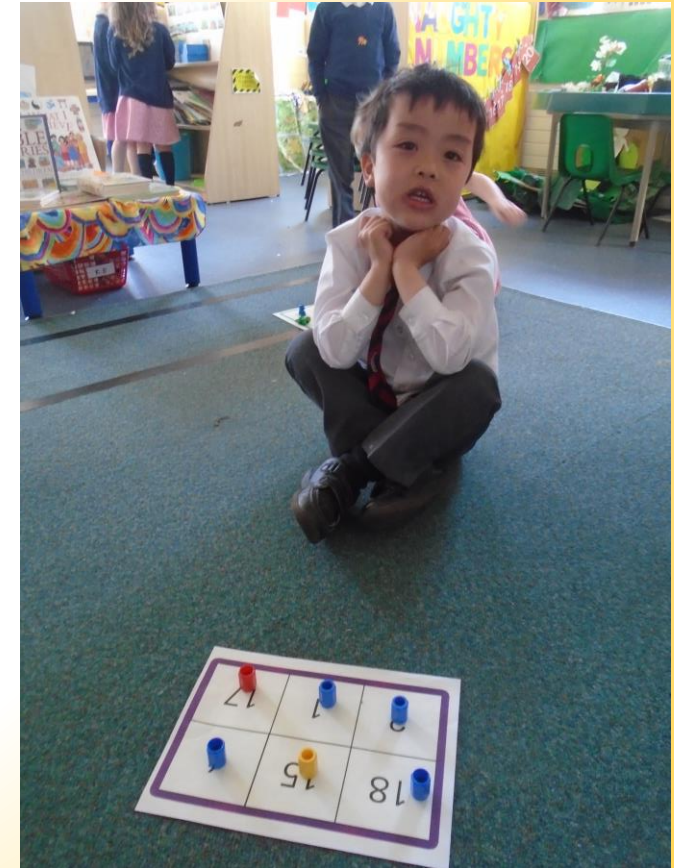

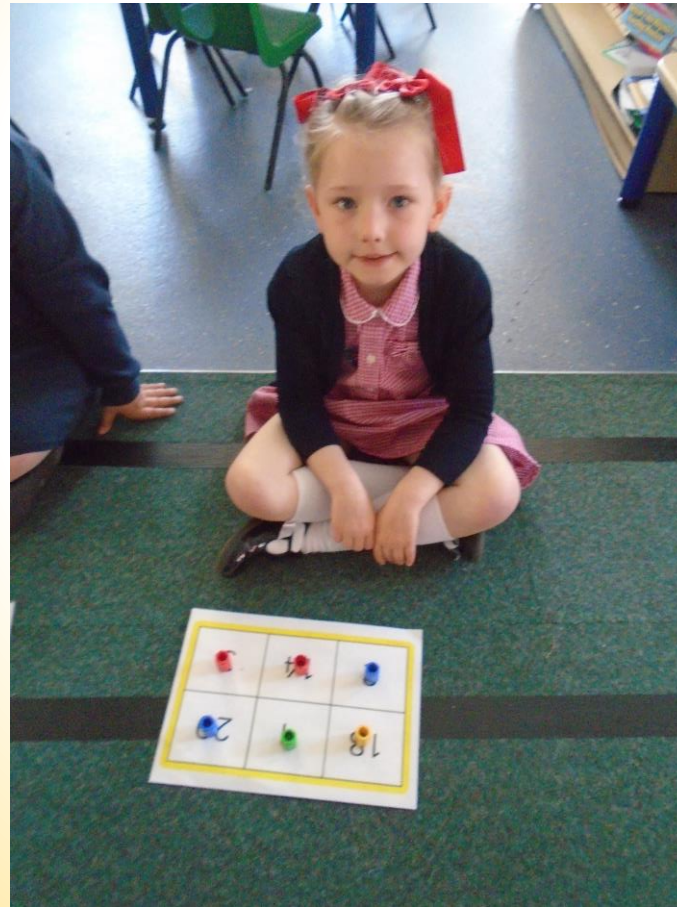

In Reception we love making patterns and sorting.

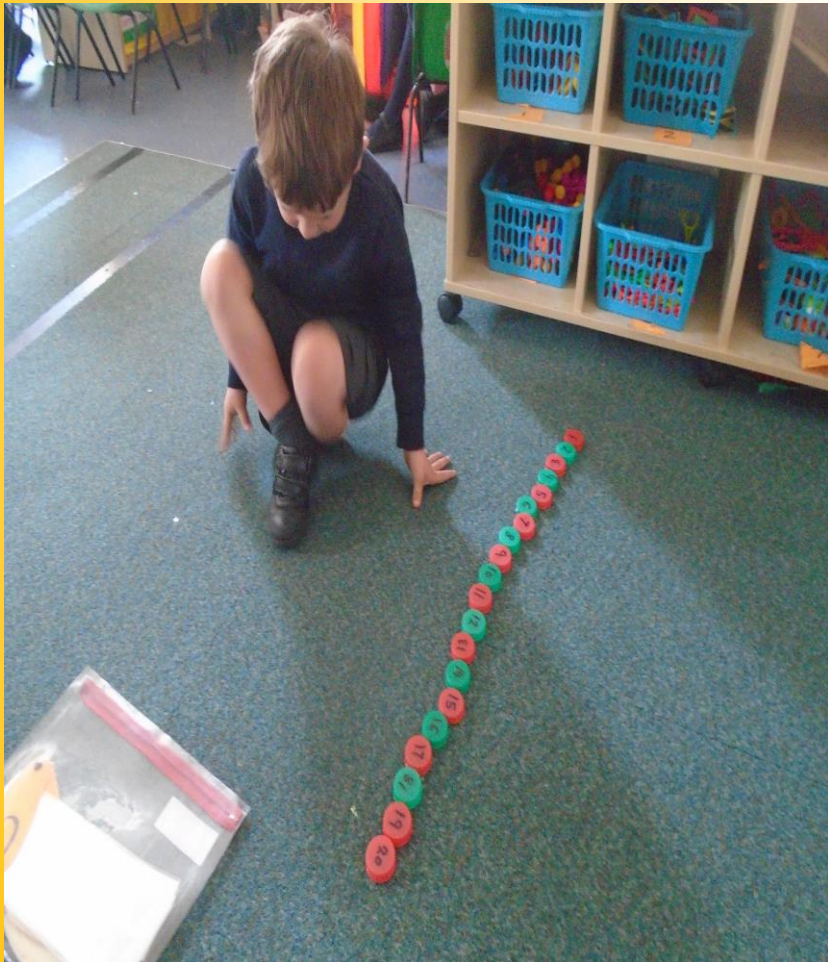

We love using numicon to help us count

We love to play bingo to show how we recognise our numbers!

We order our numbers in many different ways

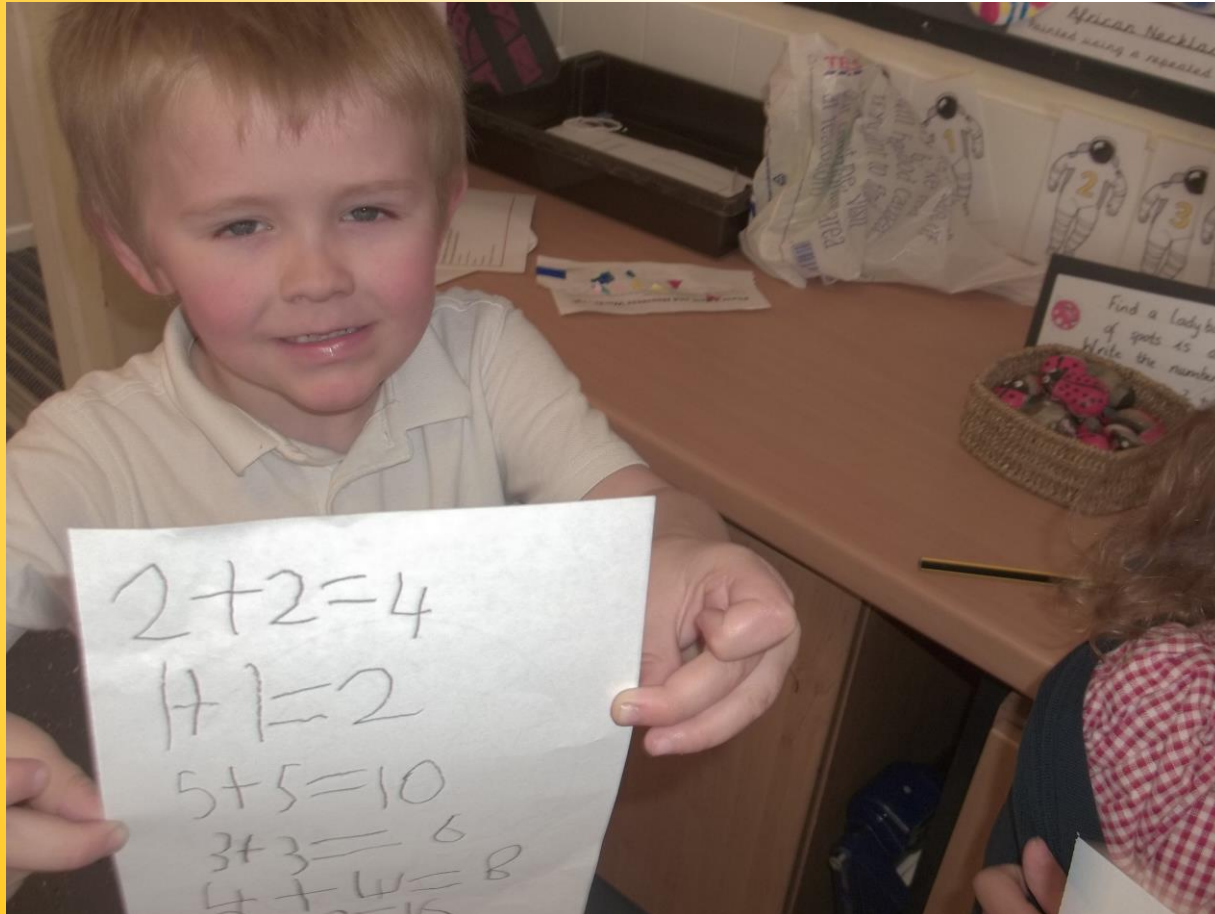

We measure our bean stalks!

We use maths to follow a recipe. Here we had to double up the ingredients to make smoothies.

We do doubling challenges!
And we can find half too!

We measure when we are gardening.

We use numbers in our role play – this is our Very Hungry Caterpillar Café. The prices are great!

We design symmetrical butterflies

We are going to be mathematicians of the future!
