

1 2 3 4 5 maths, maths meeting
6 7 8 9 10 I love maths, yes I do!

Part 1 of the lesson - Maths warm up

Part 2 of the lesson - Number work using White Rose

Part 1

Times Tables practice game.

Part 2

Yesterday, you learnt all about using arrays.
Today I would like you to find as many different arrays around your house or garden as you can.

Please record the arrays you find with either photographs or pictures and write the corresponding number sentences.

For example

$$2 + 2 + 2 + 2 = 8$$

$$4 \times 2 = 8$$

$$2 \times 4 = 8$$

To get you started - look out for an egg box, box of chocolates, ice cube tray etc.
