

ART AND DT EASTER CARDS PROJECT

RECEPTION

Reception had a go at making rocking Easter cards using appropriate tools and techniques to master basic skills of cutting and gluing.

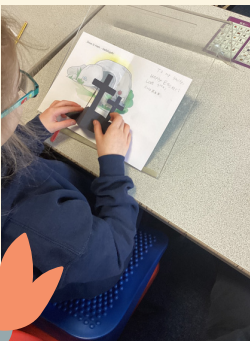

YEAR 1 & 2

Year 1 and 2 created simple designs on their cards. In their making of them, they cut and joined materials safely. They also made a structure by joining 2 objects together and maintained its balance so it would stand freely.

YEAR 3 & 4

Year 3 and 4 measured, marked and cut accurately to size their card. Their cards popped up and had additional moving parts. They used different tools, techniques and materials to create a range of effects.

YEAR 5 & 6

Year 5 and 6 used levers and linkages to carefully create Easter cards. They were able to explain the effectiveness of the existing products and develop their own ideas, as well as the explanations for their choices of materials and techniques being used.
