

my life in lockdown

At first I was excited because it was a new experience but now it's quite hard because I can't see my friend. I can't go to the place I usually go like my grandparents house, the swimming pool and school. My birthday was alright but I was very lonely I did have a water fight with my dad. we set up a tent in our garden and me, dad and my brother slept in it. I have also been building a LEGO project it's not finished yet.
