Life in lockdown: My life in lockdown has been relaxing , but sometimes it is boring.

I have a lot of things to entertain myself. In my day (when i'm not working) i can go on my xbox and talk to my friends like layton, sam and lucas, i can text my friends on the school whatsapp and watch youtube or even do my chores. Although I do miss my friends, I can't wait to see

them possibly again on the 1st of june. I have been talking to my friends most days on the school whatsapp. Me and layton on some days of the week have been doing some competitive duos on a famous online game called fortnite. We have done very well in it. One game we came 4th in a 150 game competition and we have just had a lot of fun with our friends too. We have been doing alot of exercise like doing Joe Wicks and doing a daily walk near the golf courses near the beach. We have been spending a lot of time with family, we have been having movie nights as a family and have been doing zoom calls with family too. I have been talking to Laytons friends and been having fun with his little brother called louie in year 3. In this lockdown i think i have come together more with my friends and i had a stronger relationship with my friends because i have spent a lot of time with my friends and family. Our family was very sad about my great grandads death, he sadly died of cancer, but he died gracefully though and at least he is in heaven with God now. We have just bought the new disney + and i have just started watching the mandalorian and have been watching some movies which i like and have been watching a vast amount of simpsons too. My family have been coping well in this lockdown - we have had some arguments but we are okay. I am okay and our family has not had the virus which is good and i am very excited to go back to school in june. That's all about what I have been doing in my lockdown ,so far.
