Geography at St Philip's

Geography is the study of **places** and the **relationships** between **people** and their **environments**.

Here at St Philip's we aim to inspire in pupils a **curiosity** and **fascination** about the **world** and its **people** that will remain with them for the rest of their lives.

Our Global Curriculum

Our Eco Warriors are working towards the Eco Schools award alongside our exciting Geography curriculum.

We Across our time in St Philip's, we learn key **locational knowledge** about our country, our continent and our whole world.

We also learn about **how people live** in other parts of the world including Australia, the Polar regions, Brazil and Spain.

We build on this learning throughout the year through retrieval tasks in class, such as mapingo and give one get one plus finding places on our individual maps in our books.

The Eco Warriors

Wow!
