

Maths Newsletter

Maths helps children make sense of the numbers, patterns and shapes they see in the world around them, offers ways of handling data in an increasingly digital world and makes a crucial contribution to their development as successful learners.

NSCPP Number Day 2025

We all enjoyed a fun day of maths activities, dressing up and raising money for an amazing charity.

What does a maths lesson look like at St Philips?

Daily lesson structure

White Rose
MATHS

- maths meetings
- recap of prior learning
- vocabulary needed for the lesson
- new learning in small steps
- exploration – including the use of stem sentences, concrete resources, journaling mathematical thinking and reasoning
- independent task

Number crunchers

Our committed number crunchers meet up weekly with year 2 children to enjoy maths games and help improve their number confidence.

Aims By the end of the juniors, we want our children to leave school with a positive attitude towards maths; sound mathematical knowledge; confidence and resilience; an understanding of why maths is an important subject and the ability to draw upon their knowledge to solve problems in everyday situations.

I want all children to have the best education they can and mathematics is a fundamental part of that. It is essential for everyday life and understanding of our world.
