

We know that racism is wrong! We decided that we should 'sew' our hands together to create love. The heart is the heart of our community. **Year 6**

We thought about all the things which are special in people.

Like the wings of a bird
work together to help the
bird fly- we can help each
other in our
community.

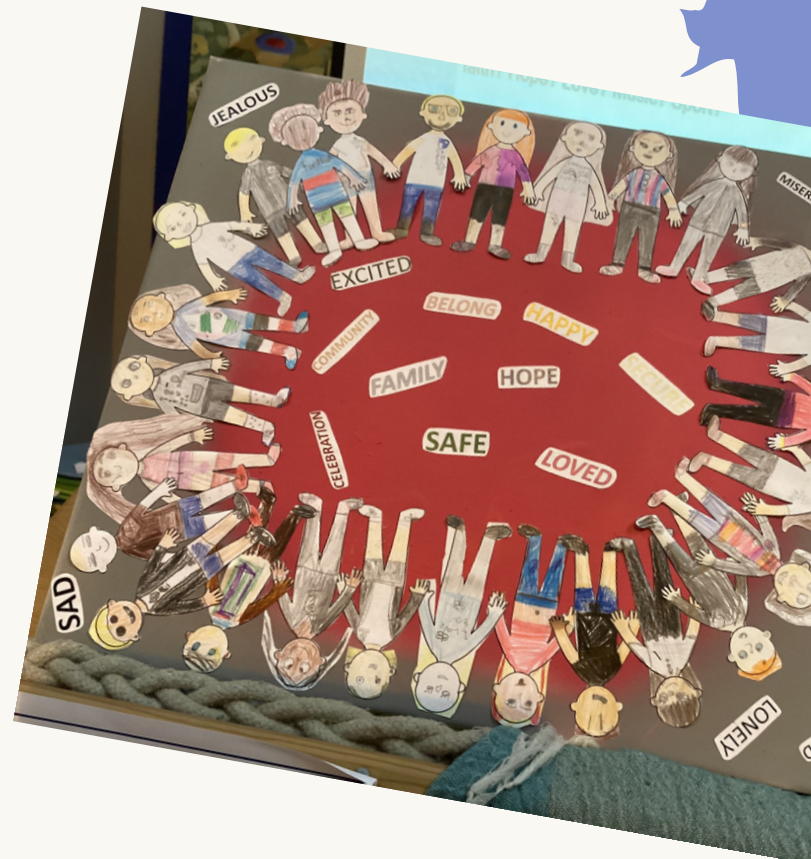

We want to show that all these different people have changed the world positively and should never be forgotten.

Year 6

YEAR 3

'Warmth in our community'

Self portraits of the children making a circle together showing the diversity of our community whilst maintaining the togetherness community gives us. The pink colour (voted for by the children) on the inside of the circle represents to them how their community makes them feel; warm, bright and loved. The grey (also chosen by the children) symbolises what being alone, lost or without a community feels like as a colour to them.

Year 4

We thought about all the countries of the world and the diversity amongst all the nations

Year 5

Although we are all different- like a jigsaw we work together as part of God's world
