

Class text

During our class story time, we are currently enjoying *The Wild Robot* by Peter Brown. This heart-warming adventure follows Roz, a robot who unexpectedly finds herself on a remote island.

With no idea how she arrived there, Roz must learn to survive in the wild by observing the animals, understanding the environment and gradually adapting to her new surroundings.

At first, the animals are unsure of her, but as Roz learns to communicate, help others and show kindness, she begins to form strong bonds with the creatures around her.

As Roz discovers what it means to care for others, work together and build a community where everyone is valued, the story explores themes of friendship, belonging, empathy and resilience.

These themes align beautifully with our Christian value of Friendship this half term, making *The Wild Robot* a perfect choice for our first Year 3 class novel.
